* **Contexts:** For each area being assessed, rate the student from 1 to 6, using the phrases in the columns opposite the area as a guideline. The assessment of each individual area will not be exact, as the phrases are only samples of how you might describe a student performance at each particular level.

Average Score (1-6): 5.86

Comments or suggestions for improvements: *What are 2-3 good things about this individual as a team player? What are 2-3 specific things that this individual should improve in order to become a better team player? (Use back if necessary):*

Ivan is an excellent team member. He was at every meeting and while there, had valuable input. His outgoing personality and sense of humor kept meetings light even while working with deliverable deadlines. While, busy, he managed his schedule well and was available when needed. I can't think of any improvements Ivan could make. He did his fair share of work and offers to help when others need it.
